This road is now one of the region's most congested routes.
Minor accidents on the A14 cause huge delays on an almost daily basis. Larger accidents bring most of Cambridgeshire grinding to a halt. This has gone on for too long now and investment is needed to make the A14 a road capable of coping with increasing demands – for the sake of the residents who have to travel it each day – and for the good of Huntingdonshire's economy.

We want commitments to:
- Secured funding for a new A14
- A solution delivered before 2020
